

Mediasite hosting services

① Your organization

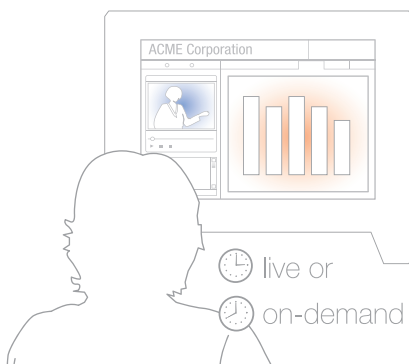

② Sonic Foundry® servers

sonicfoundry®
mediasite hosting

③ Viewers anywhere

Our Hosting Services give you a fast, reliable and cost-effective way to webcast without infrastructure hassles. Easily share your multimedia presentations online – whether live or archived – without investing in network hardware, bandwidth and personnel.

Get started now

- > Enjoy a low-risk way to put your knowledge online using Mediasite
- > Effortlessly kick-start your webcasting initiatives
- > Experience a stress-free, pay-as-you-go solution
- > Customize your hosting package around the number of presentations and viewers you anticipate

Avoid technical headaches

- > Minimize IT challenges and network infrastructure issues
- > Avoid expensive hardware, data center and bandwidth investments
- > Leverage our infrastructure, built for high availability
 - Redundant telecommunication services and firewalls
 - Multiple independent internet connections
 - Load balanced servers
 - 24x7 data center monitoring, environmental controls and power failure protection

Ramp up without risk

- > Rest assured your content is secure in a redundant, fault tolerant environment
- > Customizable configurations meet even the most demanding bandwidth needs
- > Create a quality viewing experience for any user regardless of geographic location

How it works

① You capture your lectures, briefings or training sessions as they occur with a Mediasite Recorder.

- > RL440 Recorder for room-based recording
- > ML Recorder for mobile event recording

② Sonic Foundry hosts the servers that webcast your content. You can webcast live and archive for on-demand viewing, and get anytime access to manage your online catalogs through the Mediasite Management Portal.

- > Customize viewer interfaces
- > Create custom catalogs
- > Moderate live Q&A forums and issue viewer polls
- > Add presentation closed captioning
- > Edit recorded presentations
- > Report on presentation viewing activity
- > Manage presentation security

③ Viewers watch your presentations anytime, anywhere with nothing more than a web browser.
